## IS THIS YOU? THEN IT IS WORTH READING ON

Educational experts and the volunteers in the project will **develop six creative and interactive educational travel-themed workshops** for young people **and learn how to run them**. That means all volunteers will be invited to participate in an international training, which will take place on the **Slovenian Mediterranean coast** from 26 August to 7 September 2022. Participation and travelling are free of charge.

The workshops will be offered by the volunteers of the projects all over Slovenia and in the Hanover Region in Germany. We call this a peer-to-peer approach. Young people teach other young people.

The project will start in May 2022 and the first workshops for the youth will be hosted in schools and other institutions where young people meet in the December of the same year.

The project participants from Slovenia and Hanover will meet again in Germany, namely on the **North Sea island of Neuwerk and in Hanover**, from 19 to 30 August 2023 in order to exchange experiences, continue improving their knowledge and, if interested, develop ideas for further educational projects. Participation and traveling are again free of charge.

All costs, such as project meetings and trips to the workshops (taking place) in schools, will also be covered.

The project will open doors for participants to join other regional and international educational projects.

## WHO WE ARE

For many years, **Hostelling International Slovenia**, in cooperation with the umbrella organization Hostelling International, has been looking for ways to encourage young people in particular to a different style of travel, which is more sustainable and ECO friendly.

**JANUN Hannover e.V.** has been active in environmental education and environmental protection for over 30 years and has already offered around ten international youth exchange programs annually for over 20 years.

In addition to strengthening the already established programs that both organizations carry out on a daily basis, with the "Travel Different for Future" project we want to find and develop new approaches to improve the current poor situation in tourism. The idea is to develop educational workshops for young people on the topic of travel.
