Tourism will double until 2030 and this affects our climate.

Every action counts!

Project implementers

www.traveldifferent.org

Project is co-financed

Tourism generates

8% of global emissions

and affects our world.

Let's change the way we travel!

Project implementers

Project is co-financed

Aviation alone causes 3.5% of global CO₂ emissions and it's rising.

How can we change this?

Travel Different for Future

Time for a change!

**Your flight
emits as many
greenhouse gases
in just **2.5 hours** as you
are allowed* to
produce in
one year.**

 *Travel Different for Future*

*According to the German Federal Environment Agency, each person is allowed to produce 1 tonne of CO₂ per year if we want to limit global warming to a maximum of 1.5°C.

Project is co-financed

Traffic accounts
for **13%** of
all emissions,
including **4%** from
holiday travel.

Let's travel smarter!
